The Steadicam Merlin is the new choice for videographers shooting multi-media, events, weddings, industrials and documentaries, student or serious enthusiasts who have been searching for a cost effective camera stabilization solution.

- Designed for ultra-lightweight cameras from 0.5 - 5lbs (0.2 - 2.3kg)
- Weighs a mere 12.8 oz. / 363g (less than a can of your favorite soft drink)
- Measures as little as 3.5" x 2" x 11" (9cm x 5cm x 11cm) when folded
- Ultra-light, ultra-rigid aluminum alloys
- 9 precision stainless steel weights
- Patented three-axis inter-gimbaled handle
- Folding caliper hinge
- Universal rapid mounting dovetail plate
- Accessory mounting tripod plate
- Optional travel bag

Merlin Arm & Vest The Merlin Arm/Vest accessory expands the capability of the Merlin. With the included additional weights, the Merlin can now support 7.5lbs / 2.3kg.

- Boom range 24in / 61cm
- Adjustable vest

Rev. 0909

BSTOREGAMI-C

A new stylized version of the FLYER-LE sled, vest and arm that complements the RED™ camera and includes a 7" HD monitor and powerful PowerCube batteries.

The Steadicam Flyer RED

- 12/24 volt standard 500 nit 7" LCD monitor and video production.
- Adjustable carbon fiber post
- New low friction gimbal
- Large diameter grip
- 2-section Iso-Elastic arm
- 19lbs/8.6kg net capacity
- New ergonomic vest
- HD & SE versions available
- Lightweight vest
- Long dovetail plate

The Steadicam F24LEHD is a unique lightweight Steadicam system designed specifically to accommodate a wide range of both lightweight television cameras and 16mm and 35mm film cameras. The sled carries an HD compatible monitor and is complemented by the Iso-Elastic Steadicam Flyer-LE arm and lightweight vest. It is also wired for 12/24 volts (switchable) and will accommodate a variety of battery systems

- Lightweight sled with LCD monitor
- Multi format HD, SD monitor with masked adjustable safe area
- Fully ball raced three-axis gimbal
- Precision adjustable camera mounting stage
- 2-section Iso-Elastic support arm
- Traditional style arm to vest connector with 2-axis adjustment
- 12/24 volt battery power system, choice of battery mounts

The Steadicam Flyer F24-LESE is a Special Edition Flyer that encompasses all the benefits of the standard FLYER LE and FLYER 24LE but has the following changes and / or additions.

- Leather Vest with metal shoulder buckles
- Composite NTSC / PAL 7" Color Monitor
- 700 NITS brightness level
- Variable adjust Frameline generator
- Monitor Hood
- Steadicam Power Cube battery system
- 2 PowerCubes / VL2 Charger
- Sled additions include:
 - Tally system (Sensor included)
 - V-lock Battery Mount
 - Hard Case with Steadicam Logo
 - Wheels / Pull out handle
 - 2x Sandbags / 1x tool pouch
 - Low Mode Kit
 - Turtle Base "C" Stand

The Steadicam Pilot is a state of the art lightweight stabilizer designed for portability and for use with today's modern breed of lightweight cameras from 2-10 lbs. (0.9-4.5kg). The Iso-Elastic arm, low profile vest, 2-section telescopic carbon fiber post, precision gimbal, 16:9 LCD monitor, and adaptable counter balance weights are only a fraction of the features that make this product unique.

- 16:9 color composite LCD monitor
- Choice of Anton Bauer/V-lock or AA battery mounts
- 2-section carbon fiber expandable post
- Rigid X-Y vernier adjustable stage
- Iso-Elastic arm
- Low profile vest
- Comes complete with a standard backpack for storage and transport
