

STEADY STICK™

**TAKES THE WEIGHT OFF YOUR SHOULDERS
FOR TOTAL EASE AND COMFORT**

High Angle Views

Low Shots

Midway Shots

Eye Level Shots

THE NEW MULTI-POSITION HANDLE OFFERS MORE VERSATILITY

A. Handle turns into 14" monopod. Great for stabilizing shots when sitting.

B. Handle can be mounted on either side of camera for easy maneuverability.

C. Handle adds additional support when attached as shoulder rest.

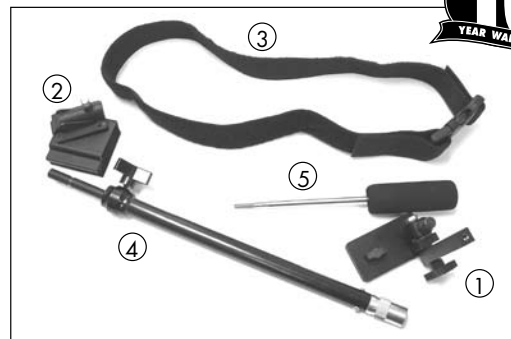

STEADY STICK™ SS3C

Improved Compact Version

For all mini-DV, Hi8, 8mm, & VHS cameras with standard tripod socket.

Perfect for in-the-field situations, Steady Stick provides you with relief from the strain of extended periods of handheld shooting by evenly distributing the weight of the camera from your shoulders to your hips. Steady Stick gives you a steady shot every time, from any height or any angle. Now you can capture the most challenging shots with total ease and comfort!

- Supports cameras up to 30 lbs.
- Lightweight, versatile, and portable
- Quick release coupler easily disconnects to attach your camera
- Lets you pan low or hold camera high over a crowd
- Guides and controls camera in any position or direction
- Conveniently fits in most camera bags
- Removable padded metal handle system connects to either side of the bottom of the Steady Stick for increased camera maneuverability.
