

Stroboframe® Compact Folding Bracket for Digital & 35mm Cameras

Folding Flip

Our latest in Flash Rotating brackets

You asked for it and we listened!

Now, the new compact Folding Flip has the versatility to accommodate 35mm as well as most digital cameras. The base is extra wide and has multiple camera mounting slots to accept just about any digital or 35mm camera.

This lightweight, flash rotating bracket shares the same high quality materials and construction as our other brackets. The new folding feature allows you to carry the bracket in your vest pocket, bag or purse: a must for photojournalists, event photographers, or any photographer working out of their camera bag.
