

TIFFEN® FILTERS

NEW

138mm Matte Box Mountable VND

(Includes a Rubber Donut & 114mm light prevention threaded rear ring)

- Up to 6-stops of Tiffen VND* (Variable Neutral Density) with index markings (Focal length dependent) with a minimum of 2-stops going up to 8-stops (ND.6 to ND2.4)
- The ultra-compact patent pending design does not impact on the original field of view of a standard rear 138mm filter ring
- Tiffen 138mm VND fits directly into bar mounted matte boxes manufactured with a 143mm Ø rear filter ring port
- The Rubber Donut is supplied with a 114mm light prevention ring, which will accept ARRI® R2 compatible threaded reduction rings
- Compatible with matte box manufacturers including ARRI®, Bright Tangerine™, Movcam, Tilta and Vocas
