INDIE FILTER KIT SERIES Developed for the Canon 5D and 7D

Introducing a series of filters to optimize your HD/SLR video shooting experience. Made from optically pure Water White glass, using our ColorCore™ technology, these filters deliver clean images and allow greater latitude in the post production process. Each kit is packaged in a padded black nylon pouch with belt loop.

- Great value
- Designed for DSLR cameras with HD video capability
- Offers a variety of density combinations to fit your individual needs
- Delivers clean images, free of IR contamination
- Packaged in a padded nylon pouch with belt loop
- Available in 77mm – other sizes available as special orders
