

TIFFEN® FILTERS

NEW

138mm Matte Box Mountable VND (Includes a Rubber Donut light prevention cover)

- Up to 6-stop Tiffen VND* (Variable Neutral Density) with index markings (Focal length dependent)
*minimum of 2-stops
- The ultra-compact patented design does not impact on the original field of view of a standard rear 138mm filter ring
- Tiffen 138mm VND fits directly into bar mounted matte boxes manufactured with a 143mm to 142.5mm Ø rear filter ring port
- The Rubber Donut is supplied with a 114mm light prevention ring, which will accept Arri® R2 compatible threaded reduction rings
- Compatible with matte box manufacturers including Arri®, Bright Tangerine™, Chrosziel®, Vocas, and TLS Optics
