## Summary

ProElite 5075-15 supports and counterbalances a full 15 pounds. **Lower priced tripods do not have the same weight capacity.**

ProElite 5075-15 sealed fluid technology has 4-step drag and 5-step counterbalance. Cheaper tripods do not offer these features.

Sachtler Ace has 4-step drag and 5-step counterbalance, but uses plastic components. ProElite all aluminum structure is sturdier.
